

/home/afontraille/QT
CREATOR/backOfficeNW
/mainwindow.h

```
graph TD; A["/home/afontraille/QT  
CREATOR/backOfficeNW  
/mainwindow.h"] --> B["QMainWindow"]; A --> C["QTextCodec"];
```

The diagram illustrates a header file's relationship with two classes. A central gray box at the top contains the file path: /home/afontraille/QT CREATOR/backOfficeNW/mainwindow.h. Two blue arrows originate from the bottom of this box, pointing downwards to two separate white boxes. The left box is labeled QMainWindow and the right box is labeled QTextCodec.

QMainWindow

QTextCodec
